Marie-Joseph Paul Yves Roch Gilbert du Motier de La Fayette, Marquis de La Fayette (French: [ˈilb?? dy m?tje ma?ki d(?) la faj?t]; 6 September 1757 – 20 May 1834), known in the United States as Lafayette (), was a French military officer and politician who volunteered to join the Continental Army, led by General George Washington, in the American Revolutionary War. Lafayette commanded Continental Army troops in the decisive siege of Yorktown in 1781, the Revolutionary War's final major battle, which secured American independence. After returning to France, Lafayette became a key figure in the French Revolution of 1789 and the July Revolution of 1830 and continues to be celebrated as a hero in both France and the United States.

Lafayette was born into a wealthy land-owning family in Chavaniac in the province of Auvergne in south-central France. He followed the family's martial tradition and was commissioned an officer at age 13. He became convinced that the American revolutionary cause was noble, and he traveled to the New World seeking glory in it. He was made a major general at age 19 but was initially not given American troops to command. He fought with the Continental Army at the Battle of Brandywine near Chadds Ford, Pennsylvania, where he was wounded but organized an orderly retreat, and he served with distinction in the Battle of Rhode Island. In the middle of the war, he returned home to France to lobby for an increase in French support for the American Revolution. He returned to America in 1780 and was given senior positions in the Continental Army. In 1781, troops under his command in Virginia blocked a British army led by Lord Cornwallis until other American and French forces could position themselves for the decisive siege of Yorktown.

Lafayette returned to France and was appointed to the Assembly of Notables in 1787, convened in response to the fiscal crisis. He was elected a member of the Estates General of 1789, where representatives met from the three traditional orders of French society: the clergy, the nobility, and the commoners. After the National Constituent Assembly was formed, he helped to write the Declaration of the Rights of Man and of the Citizen with Thomas Jefferson's assistance. This document was inspired by the United States Declaration of Independence, which was authored primarily by Jefferson, and invoked natural law to establish basic principles of the democratic nation-state. He also advocated the abolition of slavery, in keeping with the philosophy of natural rights. After the storming of the Bastille, he was appointed commander-in-chief of France's National Guard and tried to steer a middle course through the years of revolution. In August 1792, radical factions ordered his arrest, and he fled to the Austrian Netherlands. He was captured by Austrian troops and spent more than five years in prison.

Lafayette returned to France after Napoleon Bonaparte secured his release in 1797, though he refused to participate in Napoleon's government. After the Bourbon Restoration of 1814, he became a liberal member of the Chamber of Deputies, a position which he held for most of the remainder of his life. In 1824, President James Monroe invited him to the United States as the nation's guest, where he visited all 24 states in the union and met a rapturous reception. During France's July Revolution of 1830, he declined an offer to become the French dictator. Instead, he supported Louis-Philippe as king, but turned against him when the monarch became autocratic. He died on 20 May 1834 and is buried in Picpus Cemetery in Paris, under soil from Bunker Hill. He is sometimes known as "The Hero of the Two Worlds" for his accomplishments in the service of both France and the United States.

Lafayette College is a private liberal arts college in Easton, Pennsylvania. Founded in 1826 by James Madison Porter and other citizens in Easton, the college first held classes in 1832. The founders voted to name the college after General Lafayette, a hero of the American Revolution.

Located on College Hill in Easton, the campus overlooks the Delaware River and is situated in the Lehigh Valley, about 70 mi (110 km) west of New York City and 60 mi (97 km) north of Philadelphia.

Lafayette enrolls approximately 2,700 undergraduate students and offers programs in the humanities, social sciences, natural sciences, and engineering. The college emphasizes small class sizes and undergraduate research, and it competes in NCAA Division I athletics as a member of the Patriot League. As of 2024, its endowment was valued at over \$1 billion.

Lafayette, Louisiana

Lafayette (/ˈləʃiːt, ˈlʃ-/ LA(H)-F-ee-ET, French: [lafajˈt]) is the most populous city in and the parish seat of Lafayette Parish in the U.S. state

Lafayette (LA(H)-F-ee-ET, French: [lafajˈt]) is the most populous city in and the parish seat of Lafayette Parish in the U.S. state of Louisiana, located along the Vermilion River. It is Louisiana's fourth-most populous city with a 2020 census population of 121,374; the consolidated city-parish's population was 241,753 in 2020. The Lafayette metropolitan area was Louisiana's third largest metropolitan statistical area with a population of 478,384 at the 2020 census. The Acadiana region containing Lafayette is the largest population and economic corridor between Houston, Texas and New Orleans.

Originally established as Vermilionville in the 1820s and incorporated in 1836, Lafayette developed as an agricultural community until the introduction of retail and entertainment centers, and the discovery of oil in the area in the 1940s. Since the discovery of oil, the city and parish have had the highest number of workers in the oil and natural gas industry in Louisiana as of 2018. With the issuance of a bond ordinance for a series of roads connecting nearby settlements; the establishment of the University of Louisiana System's Lafayette campus; and the continued diversification of its economy, Lafayette and its metropolitan area have experienced population growth since the 1840 census and was promptly nicknamed "The Hub City." The city and parish of Lafayette are also known as the "Heart of Acadiana."

As a result of its growth, the city and region have become major centers for the technology industry; Lafayette also became a major center for health care and social services, aerospace, banking and retail.

Notable corporations with headquarters or a large presence in the Lafayette area have included Amazon, Brookshire Grocery Company, CGI, JP Morgan Chase, Ochsner Health System, Petroleum Helicopters International, and Rouses Markets.

Lafayette is home to a diverse population from Louisiana Creole and Cajun backgrounds. In 2014, Lafayette was named the "Happiest City in America." The city and region's cultural icons include Alexandre Mouton House, Brandt House, Charles H. Mouton House, the Cathedral of Saint John the Evangelist, Daigle House, First United Methodist Church, Holy Rosary Institute, Hope Lodge No. 145, and Old Lafayette City Hall. Its educational institutions include the University of Louisiana at Lafayette, South Louisiana Community College, and Remington College.

L. Ron Hubbard

Lafayette Ronald Hubbard (March 13, 1911 – January 24, 1986) was an American author and the founder of Scientology. A prolific writer of pulp science

Lafayette Ronald Hubbard (March 13, 1911 – January 24, 1986) was an American author and the founder of Scientology. A prolific writer of pulp science fiction and fantasy novels in his early career, in 1950 he authored the pseudoscientific book *Dianetics: The Modern Science of Mental Health* and established organizations to promote and practice Dianetics techniques. Hubbard created Scientology in 1952 after losing the intellectual rights to his literature on Dianetics in bankruptcy. He would lead the Church of Scientology – variously described as a cult, a new religious movement, or a business – until his death in 1986.

Born in Tilden, Nebraska, in 1911, Hubbard spent much of his childhood in Helena, Montana. While his father was posted to the U.S. naval base on Guam in the late 1920s, Hubbard traveled to Asia and the South Pacific. In 1930, Hubbard enrolled at George Washington University to study civil engineering but dropped out in his second year. He began his career as an author of pulp fiction and married Margaret Grubb, who shared his interest in aviation.

Hubbard was an officer in the Navy during World War II, where he briefly commanded two ships but was removed from command both times. The last few months of his active service were spent in a hospital, being treated for a variety of complaints. After the war, he sought psychiatric help from a veteran's charity hospital in Georgia. While acting as a lay analyst, or peer counselor, in Georgia, Hubbard began writing what would become *Dianetics*. In 1951, Hubbard's wife Sara said that experts had diagnosed him with paranoid schizophrenia and recommended lifelong hospitalization. In 1953, the first Scientology organizations were founded by Hubbard. In 1954, a Scientology church in Los Angeles was founded, which became the Church of Scientology International. Hubbard added organizational management strategies, principles of pedagogy, a theory of communication and prevention strategies for healthy living to the teachings of Scientology. As Scientology came under increasing media attention and legal pressure in a number of countries during the late 1960s and early 1970s, Hubbard spent much of his time at sea as "commodore" of the Sea Organization, a private, quasi-paramilitary Scientologist fleet.

Hubbard returned to the United States in 1975 and went into seclusion in the California desert after an unsuccessful attempt to take over the town of Clearwater, Florida. In 1978, Hubbard was convicted of fraud in absentia by France. In the same year, 11 high-ranking members of Scientology were indicted on 28 charges for their role in the Church's Snow White Program, a systematic program of espionage against the United States government. One of the indicted was Hubbard's wife Mary Sue Hubbard; he himself was named an unindicted co-conspirator. Hubbard spent the remaining years of his life in seclusion, attended to by a small group of Scientology officials.

Following his 1986 death, Scientology leaders announced that Hubbard's body had become an impediment to his work and that he had decided to "drop his body" to continue his research on another plane of existence. The Church of Scientology describes Hubbard in hagiographic terms, though many of his autobiographical

statements were fictitious. Sociologist Stephen Kent has observed that Hubbard "likely presented a personality disorder known as malignant narcissism."

other riot control tactics to forcefully clear peaceful protesters from Lafayette Square, creating a path for President Donald Trump and senior administration

On June 1, 2020, amid the George Floyd protests in Washington, D.C., law enforcement officers used tear gas and other riot control tactics to forcefully clear peaceful protesters from Lafayette Square, creating a path for President Donald Trump and senior administration officials to walk from the White House to St. John's Episcopal Church. Trump held a Bible and posed for a photo op in front of Ashburton House (the church's parish house), which had been defaced by graffiti and damaged by a fire set during protests the night before.

The clearing of demonstrators from Lafayette Square was widely condemned as excessive force and an affront to the First Amendment right to freedom of assembly. Just before visiting the church, Trump delivered a speech in which he urged the governors of U.S. states to quell violent protests by using the National Guard to "dominate the streets," or he would otherwise "deploy the United States military and quickly solve the problem."

Former military leaders, current religious leaders, and elected officials from both major political parties condemned Trump for the event, though some of Trump's fellow Republicans defended the actions. The event was described by The New York Times as "a burst of violence unlike any seen in the shadow of the White House in generations" and possibly one of the defining moments of the Trump presidency. Civil liberties groups filed a federal lawsuit against Trump, U.S. Attorney General William Barr, and other federal officials, alleging they violated protesters' constitutional rights. General Mark A. Milley, Chairman of the Joint Chiefs of Staff, later apologized for his role in the photo op.

A June 2021 Interior Department Inspector General review of U.S. Park Police actions found that Park Police did not clear protesters from Lafayette Park for Trump's visit to St. John's Church but as part of a plan to erect fencing. The Park Police incident commander was reportedly stunned when Barr informed him of Trump's impending visit. That report also confirmed the use of tear gas by D.C. Metropolitan Police, revealed Park Police did not request deployment of Bureau of Prisons to the park, and reported that it was not known why U.S. Secret Service had deployed ahead of schedule, advancing on protesters before the Park Police had a chance to warn protesters to disperse. The report also indicated that Park Police commanders could not identify who gave the order to deploy.

tactics to remove a largely peaceful crowd of lawful protesters from Lafayette Square, outside the White House. Trump then posed with a Bible for a photo-op

Donald John Trump (born June 14, 1946) is an American politician, media personality, and businessman who is the 47th president of the United States. A member of the Republican Party, he served as the 45th president

from 2017 to 2021.

Born into a wealthy family in New York City, Trump graduated from the University of Pennsylvania in 1968 with a bachelor's degree in economics. He became the president of his family's real estate business in 1971, renamed it the Trump Organization, and began acquiring and building skyscrapers, hotels, casinos, and golf courses. He launched side ventures, many licensing the Trump name, and filed for six business bankruptcies in the 1990s and 2000s. From 2004 to 2015, he hosted the reality television show *The Apprentice*, bolstering his fame as a billionaire. Presenting himself as a political outsider, Trump won the 2016 presidential election against Democratic Party nominee Hillary Clinton.

During his first presidency, Trump imposed a travel ban on seven Muslim-majority countries, expanded the Mexico–United States border wall, and enforced a family separation policy on the border. He rolled back environmental and business regulations, signed the Tax Cuts and Jobs Act, and appointed three Supreme Court justices. In foreign policy, Trump withdrew the U.S. from agreements on climate, trade, and Iran's nuclear program, and initiated a trade war with China. In response to the COVID-19 pandemic from 2020, he downplayed its severity, contradicted health officials, and signed the CARES Act. After losing the 2020 presidential election to Joe Biden, Trump attempted to overturn the result, culminating in the January 6 Capitol attack in 2021. He was impeached in 2019 for abuse of power and obstruction of Congress, and in 2021 for incitement of insurrection; the Senate acquitted him both times.

In 2023, Trump was found liable in civil cases for sexual abuse and defamation and for business fraud. He was found guilty of falsifying business records in 2024, making him the first U.S. president convicted of a felony. After winning the 2024 presidential election against Kamala Harris, he was sentenced to a penalty-free discharge, and two felony indictments against him for retention of classified documents and obstruction of the 2020 election were dismissed without prejudice. A racketeering case related to the 2020 election in Georgia is pending.

Trump began his second presidency by initiating mass layoffs of federal workers. He imposed tariffs on nearly all countries at the highest level since the Great Depression and signed the One Big Beautiful Bill Act. His administration's actions—including intimidation of political opponents and civil society, deportations of immigrants, and extensive use of executive orders—have drawn over 300 lawsuits challenging their legality. High-profile cases have underscored his broad interpretation of the unitary executive theory and have led to significant conflicts with the federal courts. Judges found many of his administration's actions to be illegal, and several have been described as unconstitutional.

Since 2015, Trump's leadership style and political agenda—often referred to as Trumpism—have reshaped the Republican Party's identity. Many of his comments and actions have been characterized as racist or misogynistic, and he has made false or misleading statements and promoted conspiracy theories to an extent unprecedented in American politics. Trump's actions, especially in his second term, have been described as authoritarian and contributing to democratic backsliding. After his first term, scholars and historians ranked him as one of the worst presidents in American history.
