Elena Jane Goulding (GOHL-ding; born 30 December 1986) is an English singer, songwriter, and activist. Born in Hereford and raised in Lyonshall, Goulding began writing songs at the age of 15. She released her debut single "Under the Sheets" through Neon Gold Records in 2009, and signed with Polydor Records that same year, releasing her debut extended play (EP) *An Introduction to Ellie Goulding*. Her debut studio album, *Lights* (2010), debuted at No. 1 on the UK Albums Chart, and was reissued as *Bright Lights*, spawning three successful singles: a cover of Elton John's "Your Song", "Starry Eyed" and "Lights".

Goulding's second studio album, *Halcyon* (2012), was preceded by its lead single "Anything Could Happen", and a repackaged edition titled *Halcyon Days* (2013) produced the single "Burn", which became her first No. 1 single in the UK. She then collaborated with DJ Calvin Harris on two singles: "I Need Your Love" and "Outside". After the release of her third studio album *Delirium* (2015) and its lead single "On My Mind", Goulding received a Grammy Award nomination for her single "Love Me Like You Do", which was recorded for the soundtrack of *Fifty Shades of Grey* (2015).

Goulding took a hiatus from 2016 to 2020, struggling with an anxiety disorder and media scrutiny over false claims about her personal life. Her fourth studio album *Brightest Blue* (2020) became her third album to top the UK Albums Chart, and her fourth consecutive album certified by the Recording Industry Association of America (RIAA). It spawned several singles, including the hits "Close to Me", "Hate Me" and "Sixteen". She reunited with Harris on the single "Miracle", which spent eight non-consecutive weeks at No.1 on the UK Singles Chart in 2023. Goulding's fifth studio album *Higher Than Heaven* (2023) debuted at No. 1 in the UK, her fourth chart-topping album, making her the British female with the most number-one albums in UK history, tying with Adele.

Goulding is the recipient of numerous accolades, including two Brit Awards, a Brit Billion Award, a Billboard Music Award, 17 BMI London Awards, and two Grammy nominations. She was honoured with a Decade Award by the Variety Hitmakers Awards in recognition of a decade of "undeniable hits" and TIME100 honoured her with the Impact Award for using her platform to protect the environment. She has sold more than 27 million albums and 216 million singles, and amassed 43 billion streams worldwide, making her one of the most successful British female singers of the 21st century.

Ellie is a character in the video game series *The Last of Us* by Naughty Dog. She is portrayed by Ashley Johnson through motion capture and voice acting; in the television adaptation, she is portrayed by Bella Ramsey. In the first game, *The Last of Us* (2013), Joel Miller is tasked with escorting a 14-year-old Ellie across a post-apocalyptic United States in an attempt to create a cure for an infection to which Ellie is immune. While players briefly assume control of Ellie, the artificial intelligence primarily controls her actions. Ellie reappeared as the playable character in the downloadable content prequel *The Last of Us: Left Behind*, in which she spends time with her friend Riley. In *The Last of Us Part II* (2020), players control a 19-year-old Ellie as she seeks revenge on Abby.

Ellie was created by Neil Druckmann and Bruce Straley, the directors of *The Last of Us*. Inspired by a mute character proposed for *Uncharted 2: Among Thieves*, they created her as a strong female character who has a close relationship with Joel; throughout the first game's development, the relationship between Ellie and Joel was the central focus. Johnson inspired aspects of Ellie's personality, prompting Druckmann to make her more active in fighting hostile enemies. Following comparisons to the likeness of Canadian actor Elliot Page, Naughty Dog redesigned Ellie's appearance to better reflect Johnson's personality and make her younger. For her performance in *Part II*, Johnson considered her own experiences with anxiety and researched the effects of post-traumatic stress disorder.

The character has been well received by critics, with Ellie's relationship with Joel most frequently the subject of praise. The strength and complexity of her character, and its subversion of the damsel in distress stereotype, have also been commended. A scene in which Ellie and Riley kiss in *Left Behind* drew social commentary and was commended as a leap for LGBT representation in video games. Johnson's performance in *Part II* was praised for her depiction of vulnerability and suffering. Both the character and performance received numerous awards and nominations, and have regularly placed favorably in polls and lists. Ramsey's performance in the television series has been similarly praised.
